AVAILABLE FROM GOPAL AGRITECH

Mulch Film

Plastic mulch film for raised beds that holds soil moisture, keeps weeds down and regulates soil temperature.

What it is

Plastic mulch film is laid over raised beds before planting. It keeps moisture in the soil, stops weeds from coming up between plants and helps keep soil temperature steady — so crops grow more evenly and irrigation water goes further.

THICKNESS

**20, 25 and 30
micron**

WIDTH

**2.5, 3.25, 4, 5 and 6
ft**

ROLL LENGTH

400 m

COLOUR

Silver / black

Key features

✓ Retains soil moisture

✓ Suppresses weed growth

✓ Regulates soil temperature

✓ Zig-zag or centre-hole punching

Applications

✓ Vegetables

✓ Chilli and tomato

✓ Strawberry and melons

✓ Drip-irrigated raised beds

Common questions

Which thickness of mulch film should I choose?

Mulch film is available in 20, 25 and 30 micron. Tell us your crop and season and we will suggest a thickness.

What widths and roll lengths are available?

Widths of 2.5, 3.25, 4, 5 and 6 ft, in 400 m rolls.
